TO WHOM IT MAY CONCERN:

RE: **RYAN L. VIKEN**

Ryan was a student in my BA431: Information Systems class during the Winter Term of 1990. He was attentive in class, attended regularly, and did extremely well. He received one of the top grades in the class.

His performance in the class indicated that he would be capable of working on either individual or team projects and that he is capable of making effective oral and written presentations.

Ryan's resume indicates an excellent mix of academic, extracurricular, and work experiences. I believe he would make a good professional employee. I am pleased to be able to recommend him.

Sincerely,

W. L. Harrison
