

Letter of Recommendation

To whom it may concern,

I would like to recommend Ryan Viken for the vacant varsity baseball head coach position at Saint Helens High School. This past year Ryan worked under Coach Prosser at the varsity level so he is very aware of the commitment needed to run a successful program. Ryan was also willing to step into a very difficult situation with the local OIBA team once it was announced that Coach Prosser would no longer be associated with the program. During this transitional period Ryan was able to keep the team together. It was during this period that I fully came to understand Ryan would be a great fit for the high school program. Not only was it important to Ryan that each individual player be committed to the success of the program, it was also important that the parents share the same commitment. It is my opinion that Ryan has the characteristics that make a great coach...leadership, integrity, commitment, positive attitude, great communicator, honesty, strong work ethic and follows the Golden Rule. I am sure your decision will be tough but you would not go wrong by offering the position to Ryan Viken.

Respectfully submitted,

Stanley Girard
